

We would love for you to join us from anywhere you are comfortable for a new study. Starting Monday, May 9th we will dive into “Refugia” a book by Debra Reinstra. We meet Monday evenings at 6:30 pm via Zoom. All are welcome!

Refugia (reh-FU-jee-ah) are natural places of shelter where biological life endures in crises like a volcanic eruption, fire or stressed climate. Refugia endures, expand and connect so new life emerges. How can Christians be people of refugia? How can we find and nurture refugia, in the earth, in our systems and spiritual lives? Reinstra recounts her reeducation--beginning not as a scientist or outdoor lover, but by examining theological and philosophical wisdom, writings by farmers, nature enthusiasts, activists, and the marginalized. The book is for those who sense this time of upheaval requires a transformed faith, but don't know where to begin.
